

## **Reserving HMEB's Center for Experiential Learning and Simulation.**

Interest Groups are encouraged to host skill sessions and simulations in the Center for Experiential Learning and Simulation.

*Any* group can host a session if:

1. They have a faculty sponsor who has identified skills that can be performed in the simulation lab and is willing to run the session.
2. They get approval from and work out logistics with Dr. George Sarosi (info below).

Contact:

*George Sarosi, MD*  
*Director, UF Center for Experiential Learning and Simulation*  
*george.sarosi@surgery.ufl.edu*

Be sure to CC your faculty sponsor.

There will be **no reservation fee for the SIM center**, but individual simulations may incur costs based on materials used or assistance needed. If you need funding for materials, contact the [MCC Treasurer](#) regarding this. Funding requires submitting an SAR, which requires a minimum 10 business days (=2 weeks!), so please plan accordingly.
